

Priority Group Success

Development Suggestions & Ideas

We all have a part to play in creating an environment that enables **Supports the Success of Priority Groups (Māori, Pacific, International and Under 25s)** and we make this commitment to build our capability in this space in the Develop section of our ADEPs as part of the [Performance Partnering](#) process.

When considering what development activity to undertake, apply a [70:20:10 mindset](#); in addition to formal learning opportunities (the 10% Formal), what can you do as part of your day-to-day work (the 70% On-the-Job) who can you work with and learn from (the 20% Social).

We've worked with staff from across the institute, with specialist knowledge of our priority groups, to gather some initial suggestions for development in this focus area. This is not an exhaustive list, but some ideas to get you thinking about what you can do build your capability to support our priority group students. Your manager may also have some ideas for team-based development.

We'd love to continue to grow these lists, so if you have any development suggestions to contribute, please email learnanddevelop@unitec.ac.nz with your thoughts.
