
To	Te Poari Mātauranga Academic Board	From	Simon Tries, Manager Te Korowai Kahurangi
Title	QMS update	Date	29 November 2019

Recommendations

That Te Poari Mātauranga receive the update on the Quality Management System stocktake.

Purpose

To provide an update to Te Poari Mātauranga on progress with the stocktake of the Quality Management System (QMS).

Commentary

At a special Academic Board meeting of 26 June, it was determined that confirmation was required that Academic Board had sufficient oversight of Unitec's QMS.

A progress update was provided to the November Academic Board meeting. As indicated in that update, ongoing refinement was required to ensure that Academic Board would have appropriate oversight. While this work has continued, progress has been slower than anticipated.

Next Steps

Complete the QMS stocktake and present the findings and any recommendations from the review to Academic Board at its February 2020 meeting.

The recommendations will include that a set of proposed workplans for Academic Board and a number of its subcommittees be adopted which, if implemented, will provide assurance that there is sufficient oversight of the QMS by Academic Board.
