# Rationale for the Interim PEP

As a rule of thumb ongoing self-assessment is good practice and is supported by our Te Noho Kotahitanga principles.

Internal self-assessment of the 2019 PEP process indicated good Āta kōrero however the evaluative writing of the PEP could be improved. This was reinforced by the Internal Evaluation and Review (IER) feedback:

- strengthen the use of rubrics
- benchmark against previous years, school targets and across sector
- judge more reliably, "What is "Excellent", "Good", Marginal" and "Poor"?"

Follows Unitec Policy and procedures. See Slide 11

## Focus areas

**Five** focus areas:

1. Successful Course Completion (SCC)
2. Graduate outcomes
3. Implementation of various actions relating to the various strategies and related plans (e.g., the “I see me” initiatives)
4. Impact and support relating to Covid19, the campus lockdown and the shift to online learning
5. Progress against smart goals set in previous PEP

See Slide 12 for FINE PRINT

## Which programmes?

All programmes and training schemes ***excluding*** those:

- expiring due to 2018 Suspension of programmes
- expiring due to MRoQ

This equates to:

- 77 programmes or training schemes

## Main changes

More autonomy for Schools and programmes to own their Āta kōrero and process:

- Leading Āta kōrero: Evaluative conversations (APM or Programme Co-ordinator)
  - Logistics – fit in with your academic meetings
  - Facilitation and note-taking
- Writing interim PEP
- HoS/APM internal review of interim PEP (new step)
- Submission to PAQC and QAB
- PAQC self-assessment of interim PEP

## Main changes – Documentation

Based on internal self-assessment, HoS, APMs and IER.

Most importantly:

- Provision of clear **self-assessment rubrics** of how interim PEPs will be evaluated

Improved documentation:

- PEP template with some sections using **scaffolded writing**
- Guidance on the use of **educational performance rubrics** to make better judgements
- Providing an **exemplar** for writers' to benchmark their writing
- **pre-population** of parts of the template where possible

# Main changes – Capability Development

Capability development improvements and new initiatives include:

- Just-in-time **Pre-Āta kōrero session** for APMs/Programme co-ordinators/Facilitators/Note-takers - flexibly timed sessions
- **Go-to specialist partner** for each School
- **PAQC development** session focussing on self-assessing interim PEPs

## Some changes - Evaluation

We listened to your feedback.

Better provision of feedback on PEPs:

- Provision of clear **self-assessment rubrics** of how interim PEPs will be evaluated
- **Timely feedback** on evaluation of PEP reports to stakeholders

New step (optional):

- Internal review of PEPs by HoS/APMs prior to going to PAQC

Greater governance oversight:

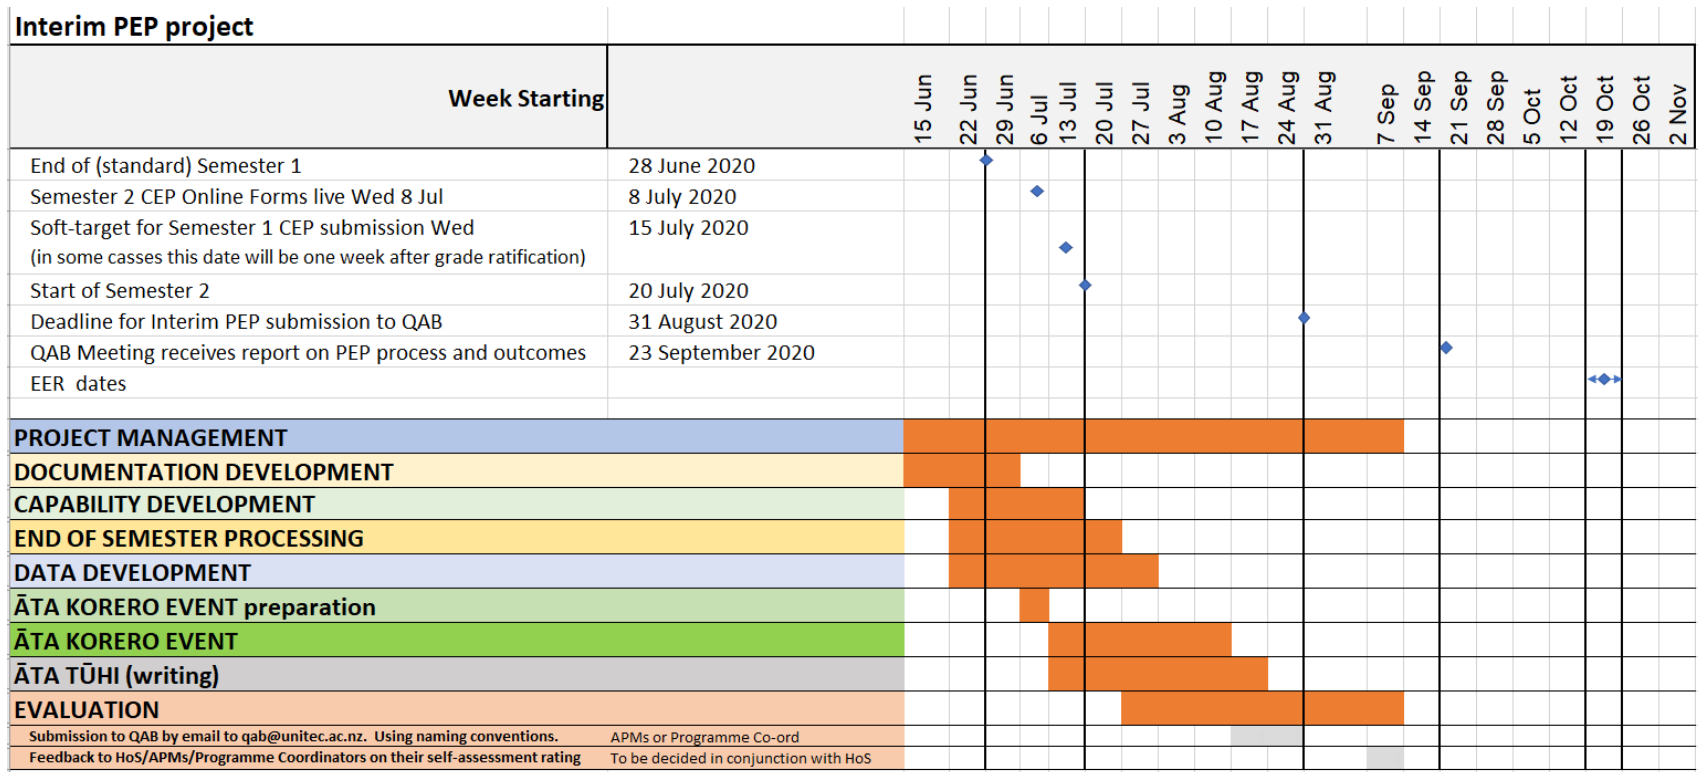

- More **robust evaluation** by PAQC

# Broad Timelines

|                       |  |
|-----------------------|--|
| 24 June               | Course survey results published  |
| 28 June               | End of (standard) semester 1   |
| 29 June – 12 July     | Grade processing   |
| 13 July – 14 August   | Āta-kōrero evaluative conversations occur  |
| 15 August – 31 August | PAQC evaluation of interim PEP reports   |
| 31 August             | Deadline for submission of reports to <a href="mailto:qab@unitec.ac.nz">qab@unitec.ac.nz</a> |
| 1-15 September        | Evaluation of process and outcomes of Interim PEP cycle                                      |

## Policy/Procedure/Pathway to this Point

- Over-riding Policy: Academic Evaluation, Review, and improvements policy
- Academic Board sub-committee Quality Alignment Board on the 20 May approved the linked [Interim PEPs approach](#) in principle subject to HoS and timeline discussion
- Consultation with Director – Ako and Executive Director – Schools and Performance

# Fine Print

## **Proposed focus of interim PEP**

Successful Course Completion

Graduate outcomes

Implementation of various actions relating to the various strategies and related plans (e.g., the “I see me” initiatives)

Impact and support relating to Covid-19, the campus lockdown and the shift to online learning

Progress against action plans (and setting of any new actions)

## **Rationale**

This will be the first semester the initiatives to support the implementation of the various support strategies can be measured through EPI data

Graduate outcomes are a key performance measure for Unitec. The results from the graduate survey will have just been published meaning that data from all 2019 graduates will be available

Relates to SCC above. A key focus of our EER is the implementation and outcomes from our various priority group strategies. An evaluation of these as they relate to specific programmes will be critical in supporting a positive outcome from EER

The rapid shift to online learning as a result of the mandated campus lockdown significantly affected staff and students. Understanding the impact and consequences of this will be important to inform future practice, to understand our students’ performance and our staff engagement

Action planning, and the evaluation of actions, not only better supports the implementation of those actions but also provide an additional option to demonstrate our capability in self-assessment

2020 Interim PEP
