
To	Te Poari Whai Kounga Quality Alignment Board	From	Steve Marshall Te Korowai Kahurangi
Title	Degree Monitoring	Date	07 July 2020

Recommendation/s

That Te Poari Whai Kounga | Quality Alignment Board:

- receive the update on 2020 Degree Monitoring Scheduling post-lockdown
- sets a final date for confirmation of Degree Monitoring rescheduling

Purpose

The purpose of this report is to provide Te Poari Whai Kounga | Quality Alignment Board with an update on the status of Degree Monitoring Schedule for 2020.

Commentary

In April, NZQA informed ITO's that they were temporarily suspending Degree Monitoring activity until further notice. In early June NZQA advised that the process would now start again from July 2020. Therefore, all programmes subject to Degree Monitoring at Unitec began the process of re-establishing a schedule for Degree Monitoring to occur during Semester 2.

The attached Schedule Update presents progress to date on re-establishing the schedule. Green indicates those programmes which have either completed their monitoring, or confirmed a rescheduled date. Amber indicates those programmes that are still in progress.

While the requirement to re-establish Degree Monitoring dates for programmes has been widely circulated and included in PAQC agendas, it would be helpful for planning and tracking of progress if a date for final confirmation of a rescheduled date could be set by the QAB and passed on to all Schools.

Next Steps

Te Korowai Kahurangi will continue to track, and report on Degree Monitoring re-scheduling and activity.
