Academic Board Meeting

2020-09-02

Title	Student Success Strategy 2020 - 2022
Provided by:	Glenn Mckay - Tumu
Authored by:	Annette Pitovao – Director Student Success 2020-08-20
For:	Information

Recommendation

That the Academic Board receives the Unitec Student Success Strategy 2020 – 2022 which has been approved by Executive Leadership Team.

Purpose

The purpose of this paper is to present the approved Student Success Strategy and identified goals.

Justification

The development and implementation of the Unitec Student Success Strategy is viewed as being critical to delivering and supporting Unitec's Manaakitia Te Rito strategy. The Student Success strategy is aligned to the institute's strategic priorities, is led by the values of Te Noho Kotahitanga and has community and students at the center. As such, the ELT approval of the strategy will lead to improved outcomes for learners and key stakeholders.

Background

The development of the Unitec Student Success Strategy was paused in order for Unitec to take into consideration the outputs of NZISTs Learner Journey Mapping workstream. This information was subsequently shared with ELT and an initial workshop held to determine initial direction and alignment. Several key conversations continued with Annette Pitovao, Nick Sheppard, Simon Nash and Glenn Mckay before a final working draft was presented to the wider Student Success Leadership team. The leadership team provided valuable

feedback and the strategy amended to incorporate shared views. The strategy is endorsed by all aforementioned teams and contributors.

Next Steps

Following ELT approval, the strategy is presented to Academic Board for further endorsement. This is to be followed by being presented to Quality Alignment Board, Ako Ahimura and any other committees awaiting update.

Contributors

Simon Nash – Executive Director Ako

Nick Sheppard – Executive Director Schools and Performance

Glenn McKay – Tumu + Executive Director Student Success
