<b>Title</b>	Learning & Teaching Strategy, 2020-2022	<b>Date</b>	25/08/20

---

**Recommendation/s**

That the Ako Ahimura Learning & Teaching Committee receive the up-dated Learning & Teaching Strategy 2020-2022

**Background**

At the meeting of 22 July 2020, Ako Ahimura Learning & Teaching Committee agreed that the draft Learning & Teaching Strategy presented was ready for submission to Academic Board for final approval. However, a number of committee members suggested that further feedback should be sought via Heads of School and their representatives on the AAL&T Committee. The Chair agreed and circulated the draft strategy for further feedback.

Feedback was received by three Schools, as well as the Academic Programme Manager group. That feedback has been addressed, where possible and appropriate, and the draft document up-dated accordingly. Change to the content of the strategy is limited. A number of overlapping objectives have been combined and some of an operational nature have been removed (to be added to the implementation plan), thus reducing the overall length of the document. A significant number of wording changes have been made to enhance the aspirational and motivational tone of the document.

**Next Steps**

- Supporting [Success Indicators](#) document to be up-dated to reflect the changes made to the draft strategy; action column to be added
- Learning & Teaching Strategy to be presented to Academic Board for final approval at the meeting of 02 September 2020
