
To	Academic Approvals Committee	From	Sarah Sommerville Operation Coordinator, UPC
Title	UPC STAR Unit Standard update	Date	2020/07/20

Recommendation/s

That the Committee approve the addition of new ECE unit standards courses for contracted delivery activity with Schools under STAR (STLP) for 2020.

Purpose

This is to fulfil the contracted delivery requirements of Schools under the STAR programme. To ensure our reporting matches our secondary school partners.

Background

In late 2019, our secondary school STAR partners let us know their intentions for 2020. In our ECE (Early Childhood Education) pathway, this resulted in a number of new standards because of expiring standards or additional standards.

This affects two of our partner secondary schools, each of which have a cohort of students who will be undertaking these standards. The proposed standards are

US29852	US29853	US29854	US29855	US29859	US29867
US29868	US29871	US29866	US29856	US29861	

Next Steps

Once approved, next steps are for the standards to be created in the system so timetabling are able to create class numbers, and we can get students enrolled.

Attachments

Copies of emails of intended standards for 2020 for Whangarei Girls High School and Green Bay High School attached. As well as a copy of Green Bay High Schools MOU's as an example (standards are included in schedule one).
