Consistency Review - Evaluation Rubric

Rating	Criteria to evaluate the sufficiency of evidence that exists at the time of the initial meeting with the programme staff	Criteria to evaluate submission progress	Criteria to evaluate the NZQA published outcome	Criteria to evaluate the programmes management of follow up actions
Excellent	External and internal moderation provides sufficient evidence in validating the achievement of outcomes AND Evidence has been/is being collected and analysed from graduates/end users for three or more iterations (where possible) AND The Programme Leadership/ programme team has a good understanding of Consistency Review process and are monitoring evidence for consistency. AND The graduates/end users evidence has sample sizes that are statistically valid AND Evidence from graduates/next users includes relevance of GPOs	Ahead of agreed timeline	Outcome is sufficient and meets rubric criteria and practices used are exemplified in the NZQA report	The NZQA Report and the action plan have been submitted to the PAQC AND the actions required to manage gaps in self-assessment capability of the programme are SMART, minor or not required AND actions disseminate beneficial practices AND (Final Action) Actions are on track / completed in accordance with the action plan.
Good	External and internal moderation provides sufficient evidence in validating the achievement of outcomes AND Evidence has been/is being collected and analysed from graduates/end users for most graduating cohorts AND The graduates/next users evidence has sample sizes that are <u>mostly</u> statistically acceptable or explainable AND The Programme Leadership/ programme team has a good understanding of the process and evidence requirements for consistency.	On-track with agreed timeline	Outcome is sufficient and meets rubric criteria	The NZQA Report and the action plan have been submitted to the PAQC AND the actions required to manage gaps in self-assessment capability of the programme address all issues are SMART and minor AND (Final Action) Actions are slightly off track, but able to be completed on time/ completed in accordance with the action plan.
Marginal	External and internal moderation does not provide sufficient evidence in validating the achievement of outcomes however can be achieved in time for the review. OR Evidence gaps from graduates and next-users are large and requires substantial work however can be achieved in time for the review.	Behind agreed timeline and potential for quality of product to be compromised. There is a 50/50 risk to achievement of a "sufficient" rating. HoS notified	Interim Consistency Review outcome is "Not Sufficient" but final result is "Sufficient"	The NZQA Report the action plan have been submitted to the PAQC AND the actions required to manage gaps in self-assessment capability or the programme are significant, do not address all issues OR are not SMART AND (Final Action) Actions are unlikely to be completed on time, are not timely or in accordance with the action plan. HoS notified
Poor	External and internal moderation does not provide sufficient evidence in validating the achievement of outcomes AND Evidence from Graduates/End Users is currently not sufficient to validate consistency with the Qualification GPOs HoS advised	Well-behind agreed timeline and potential for quality of product to be compromised. There is a high likelihood of a "Not sufficient rating". HoS notified	Final outcome is "Not Sufficient"	The NZQA Report the action plan has been submitted to the PAQC within two PAQC cycles of receiving the report OR action plan not developed when needed HoS notified
