NEW ZEALAND'S ELECTRIC BIKE SPECIALISTS

## “THE COMPANY” STAFF OFFER

# electrify.nz

Electrify NZ is New Zealand's largest specialist supplier of e-bikes and proud to be owned and operated in NZ. We believe the future of transportation is electric and offer e-bikes across a full range of styles and price points. With a strong emphasis on after sales service and support, our stores receive consistently positive customer reviews. We are experts in delivering successful staff offers for employers, having pioneered the approach in New Zealand.

## Our Brands

### **BLACK** NZ'S OWN ELECTRIC BIKES

Electrify.NZ's own E-Bike brand, designed in New Zealand & offer quality, reliability & value for money, backed by a solid 2yr warranty. The brand combines Electrify NZ's understanding of New Zealand customers with top quality global components.

The award winning Smartmotion range is designed in New Zealand for NZ's rugged conditions - durable E-Bikes with quality components at an accessible price.

Magnum is one of the biggest selling E-Bike brands in the USA. Their ongoing commitment to innovation and use of quality components helps them stand out with some of the most advanced electric bikes on the market—at prices that won't break the bank.

### **WISPER**

The Wisper E-Bike brand is synonymous with excellence in design, high quality build and componentry. Wisper's E-Bike range has something for everyone – especially those looking for unrivalled value for money

Gepida are high-quality European electric bikes, built in partnership with Bosch. They are leaders in European electric bike design and production, developing innovative designs that meet the standards of discerning European consumers.

### **HAIBIKE**

Founded in Germany in 1996, Haibike is widely acknowledged as the first company to successfully develop high-end performance electric bikes. Around the world their performance mountain and trekking E-Bike receive rave reviews.

For decades the name KTM has been synonymous with off-road performance. Using their vast experience and manufacturing capabilities, they are now distributing high-quality e-bikes all over the world, and we are very pleased to bring their electric bike range to New Zealand for our customers

Offer valid until 31/3/2023 to staff of (Employer) and their immediate families.

Staff should provide some proof of employment such as a business card, staff ID or company email to qualify. Discounts are off RRP and cannot be combined with another offer. Battery upgrades available at regular pricing. Offer is dependent on stock levels and some models may become unavailable if stock becomes depleted.
